

Review Form 3

Journal Name:	Asian Journal of Education and Social Studies
Manuscript Number:	Ms_AJESS_129714
Title of the Manuscript:	Development of a E-Student Worksheet Based on Phenomenon Based Learning (PhenoBL) on Reaction Rate Material Using the Wizer.me Website For Class XI High School/MA
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	<p>The rapid progress of technology does need to be balanced with the world education system, one of which is through the development and innovation of learning to improve student progress.</p> <p>please explain why it is important for the author to develop e-student worksheets. Do not only look at technological advances but also look at whether there are problems in schools related to student worksheets and their learning models. Are the facilities and infrastructure at the research location adequate?</p>	It has been explained in the introduction paragraph 4. There it was explained the results of interviews with teachers about the state of learning and about the facilities and infrastructure.
Is the title of the article suitable? (If not please suggest an alternative title)	The article title is appropriate.	Thank you! I'm glad to hear that the article title is appropriate.
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	<p>It is comprehensive but there needs to be fundamental issues as support in developing e-student worksheets.</p> <p>It is necessary to add the main problems that underlie the author's development of e-student worksheets.</p>	I have added the problem to the abstract.
Is the manuscript scientifically, correct? Please write here.	This manuscript is in accordance with scientific principles with the stages of the development research type.	Thank you for the feedback. I'm glad to hear that the manuscript aligns with scientific principles and follows the appropriate stages of the development research type.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are sufficient and recent	I'm pleased that the references meet the requirements. I made sure to include the most relevant and recent studies to support the content.

Review Form 3

<p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Good enough</p>	<p>Thankyou. I'm open to any further suggestions regarding the language to ensure it's as effective as possible.</p>
<p><u>Optional/General</u> comments</p>	<p>1. There is no correlation between the Phenomenon Based Learning (PhenoBL) model and the material used.</p> <p>2. Why in the 4D model only up to the development stage</p> <p>1. It is necessary to add regarding the importance of the suitability of the Phenomenon Based Learning (PhenoBL) model with the material used.</p> <p>2. It is necessary to explain why it is only limited to the development stage</p>	<p>1. I have added the importance of using the learning model in the reaction rate material in the introduction paragraph 4.</p> <p>2. Because it is in accordance with the purpose of my research, this study aims to see the validity of the E-Student Worksheet and see the response from users, namely teachers and students.</p>

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
