| **Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.** | This manuscript contributes valuable insights into how teachers manage stress and employ coping mechanisms in the context of the "new normal" in education, particularly in public elementary schools. It bridges a critical gap in understanding the interplay between stress management techniques and coping strategies within an educational framework impacted by the COVID-19 pandemic. | We are thankful for your comments. |
| **Is the title of the article suitable?** **(If not please suggest an alternative title)** | The current title is informative but can be more concise. Suggested alternative:<br><br>**"Stress Management and Coping Strategies of Teachers in the New Normal Education."** | Thank you for your suggestion regarding the title. While we appreciate your input, we have decided to stick with our original title, "Stress Management Techniques and Coping Strategies Mechanism of Teachers in the New Normal Education." This title provides a detailed and specific description of the study's focus, ensuring clarity and alignment with the content of the paper.<br><br>We believe the current title effectively captures the key variables and scope of the research. However, we remain open to further discussion if necessary. Thank you for your understanding and valuable feedback |
| **Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.** | The abstract is comprehensive, but it could be improved by:<br>• Highlighting the study's key implications for educational policy and practice.<br>• Suggestion for inclusion: A brief mention of the main statistical findings (e.g., correlation values) for a clearer summary of results. | We are thankful for your comments. We have thoroughly revised the paper as suggested. |
| **Is the manuscript scientifically, correct? Please write here.** | The manuscript is scientifically accurate and aligns with established frameworks such as the Transactional Model of Stress and Coping. However, certain sections would benefit from clearer explanations, such as the influence of specific stress management domains on coping strategies. Statistical results are well-documented and support the study's conclusions. | We are thankful for your comments. We have thoroughly revised the paper as suggested. |
| **Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.** | Consider adding more recent studies from 2023–2024 on teacher resilience and stress management in pandemic/post-pandemic settings to reinforce the study's relevance. | We are thankful for your comments. We have thoroughly revised the paper as suggested. |
