

Review Form 3

Journal Name:	Asian Journal of Medicine and Health
Manuscript Number:	Ms_AJMAH_130015
Title of the Manuscript:	Knowledge and Perception of HealthCare Workers on Antibiotic Resistance and Predictors of Antibiotic Prescription in Benue State, Nigeria.
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The study's findings have significant implications for addressing antibiotic resistance, a growing global health concern. The research provides valuable insights into the factors influencing antibiotic prescription and highlights the need for targeted interventions to promote prudent antibiotic use.	I agree with the reviewer
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	yes
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive, but it could be improved by highlighting the study's main findings and implications more clearly.	It had been addressed appropriately
Is the manuscript scientifically, correct? Please write here.	The manuscript appears scientifically correct, but some minor errors and inconsistencies were noted. For instance, some references are not properly formatted, and there are a few grammatical errors.	All the inconsistencies on references had been addressed
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient. Additional recent references could strengthen the manuscript. For example, the references on the latest antibiotic resistance trends and guidelines.	Current references had been included
Is the language/English quality of the article suitable for scholarly communications?	The language and English quality are generally suitable for scholarly communication.	I agree with the reviewer
Optional/General comments	Discuss the study's limitations.	The limitation of the study had been discussed
