

Review Form 3

Journal Name:	Asian Journal of Pediatric Research
Manuscript Number:	Ms_AJPR_129593
Title of the Manuscript:	Association Between Socio-Demographic Characteristics and Birth Preparedness and Complication Readiness (BPCR) Practices Among Pregnant Women in the Tamale Metropolis: A Cross-Sectional Quantitative Study
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The rate of women dying as a result of pregnancy-related causes supports the importance of this work. The population under study falls within the Low-middle income countries which recieves the adverse effects of birth complications.The WHO findings on BPCR practices as very essential in reducing maternal death globally places this study as very important. Tamale metropolis is significantly disadvantageous considering poor educational levels, higher poverty rates and limited access to healthcare facilities proving the need for this research.	Noted
