Optional/General comments	The author said that ACO was developed by Scianna in 1990s, that’s not true, it was developed by Marco Dorigo. Scianna developed a modified version of the ACO. He must correct it.	You are absolutely right. In the early 1990s, Marco Dorigo invented Ant Colony Optimization (ACO) as part of his doctoral research. It is generally accepted that Dorigo's 1992 dissertation and subsequent work introduced ACO. Chiana is not credited with the original development of ACO, although she may have helped create a modified version of it.. Marco Dorigo was the first to propose ant colony optimization in the 1990s. For specific problems, later researchers, including Siana, have developed modified versions and applications of ant colony optimization.
