	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	As SSI is a common problem faced in hospitals such a study helps in ascertaining: 1) The awareness of such a problem 2) The need to tackle it 3) The need to prevent it as much as possible. In this context the study shows the efficacy of a simple, easily available and cheap solution.	Thanks for the suggestions
Is the title of the article suitable? (If not please suggest an alternative title)	YES	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is OK	
Is the manuscript scientifically, correct? Please write here.	YES	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are OK. But another 5 more references in Indian setting published would be better suited.	Okay noted and added.
Is the language/English quality of the article suitable for scholarly communications?	Quality of English language is good.	
<u>Optional/General</u> comments	The abstract mentions that the study is a prospective one. But in the manuscript towards the end it is mentioned that Ethics committee approval was not necessary. These two appear contradictory. Any prospective study needs approval of the Ethics committee. Please ensure the same.	Noted and revised.
