#### **PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The research described in this article is relevant, since the assessment of water erosion processes is a necessary step in the development of effective measures to prevent the risk of destruction of fertile soil layers, as well as pollution of aquifers, which are important for consumption and irrigation. This is an exceptionally important element for countries with low resources located in arid and semi-arid regions of Africa. The text of the article is structured and takes into account the results of fairly recent scientific works by other authors.	Your observations are welcome and enhancements have been done
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is sufficient.	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes
