PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This article is highly relevant given the current scenario of pesticide application. However, its significance is somewhat limited by the fact that only a single organism has been tested. Including multiple biocontrol agents in the study would undoubtedly enhance the quality and impact of the manuscript.	
Is the title of the article suitable? (If not please suggest an alternative title)	Not suitable as per the main context of the study. Title needs to be changed.	Title changed accordingly
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Rewrite the abstract with better language	Done
Is the manuscript scientifically, correct? Please write here.	Emamectin Benzoate 5%SG and Proclaim 5%SG both are same but written differently.	Used different trade name chemical for comparison
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes sufficient	Ok
Is the language/English quality of the article suitable for scholarly communications?	Needs improvement. Suitable after major revision	Ok
Optional/General comments	Article is important but as a single biocontrol agent is studied it is limiting the importance of the manuscript.	Accepted
