Manuscript Number:	Ms_AJFAR_130075
Title of the Manuscript:	An investigation on population dynamic of Shield-head catfish <i>Synodontis schall</i> in Upper Atbara and Setit dam complex, Sudan.
Type of the Article	Research Article

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	Although the study is local, studies on the population dynamics of fish species are decreasing worldwide. Due to ecological changes, the continuity of such monitoring and evaluation studies is required. When evaluated from this point of view, the study is scientifically valuable in terms of resistance to an existing decline.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The title comprehensively summarises the study.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract section summarises the study entirely. There is no deficiency.	
<b>Is the manuscript scientifically, correct? Please write here.</b>	The article serves a purely scientific research.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	The authors' bibliographies are sufficiently up-to-date. No additions are recommended.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	The authors used a very simple expression in the article, and I want to thank them for the English version.	
<b>Optional/General</b> comments	First, I would like to thank the authors for their work. I read it with pleasure. The article was written on a subject where aquatic ecosystem monitoring and evaluation studies are decreasing, and according to the referee, it is very valuable. Such publications should be valued more. I hope that the article will be published in your esteemed journal as soon as possible.
