Journal Name:	<a href="#">Asian Journal of Medicine and Health</a>
Manuscript Number:	Ms_AJMAH_130015
Title of the Manuscript:	Knowledge and Perception of HealthCare Workers on Antibiotic Resistance and Predictors of Antibiotic Prescription Pattern in Benue State, Nigeria.
Type of the Article	

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	The study's findings have significant implications for addressing antibiotic resistance, a growing global health concern. The research provides valuable insights into the factors influencing antibiotic prescription and highlights the need for targeted interventions to promote prudent antibiotic use.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	Yes	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract is comprehensive, but it could be improved by highlighting the study's main findings and implications more clearly.	
<b>Is the manuscript scientifically, correct? Please write here.</b>	The manuscript appears scientifically correct, but some minor errors and inconsistencies were noted. For instance, some references are not properly formatted, and there are a few grammatical errors.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	The references are sufficient. Additional recent references could strengthen the manuscript. For example, the references on the latest antibiotic resistance trends and guidelines.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	The language and English quality are generally suitable for scholarly communication.	
<b>Optional/General</b> comments	Discuss the study's limitations.	

#### PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
