	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The importance of the Ogunlade Maturity Triangle, a conceptual model based on the Pythagorean theorem, to explain how maturity develops through the interaction of brain development and environmental influences. This framework bridges disciplines like psychology, neurology, sociology, and philosophy to offer insights into human growth and behavior. It highlights the combined impact of internal cognitive growth and external experiences in shaping maturity.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title " <i>The Ogunlade Maturity Triangle and Theorem of Maturology: A Metaphorical Framework for Understanding Human Maturity</i> " is suitable. It effectively reflects the key concepts discussed in the text, including the metaphorical model, the theorem, and its application to understanding human maturity. It is clear, descriptive, and aligns well with the academic tone of the content.
