Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript titled "A New Look at the Great Red Spot of Jupiter" holds significant importance for the scientific community as it promises to offer fresh insights into one of the most iconic and enduring features of our solar system. By revisiting the Great Red Spot, a massive storm that has persisted for centuries, the study could deepen our understanding of planetary weather systems, atmospheric dynamics, and long-term climate behavior on gas giants like Jupiter. This research could also help refine models of planetary atmospheres, contributing to broader comparative planetary science, including our understanding of exoplanetary systems.
