Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Garlic cultivation is yet to meet its demand in the sub-Saharan Africa including Nigeria. The research team has collected interested data that can help policy development in the sector. However, the manuscript needs to be worked upon before it is published for proper dissemination of the work. It is an exciting research.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is comprehensive. I suggest the abstract be recast to meet the journal standards. Words must not exceed 300. Please notice that you have 302 words. Also redo the section on the materials and methods and also summarise the results included	
Is the manuscript scientifically, correct? Please write here.	yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	More references should be included in your materials and methods. Replace the few old references that I have indicated. Some old references in the soil analyses are ok since the represent standard methods	
Is the language/English quality of the article suitable for scholarly communications?	Yes, however, the adjustments and corrections indicated must be effected and also it is important to screen the paper again for the many grammatical errors and spellings.	
Optional/General comments	PLEASE SEE YOUR ATTACHMENT
