

Review Form 3

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_129350
Title of the Manuscript:	Natural Virus Infection on Improved Cassava (<i>Manihot esculenta</i> Crantz) Varieties in Minna, Northern Nigeria
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Given the importance of cassava in Nigeria, it is very important to use genetically improved varieties that can increase cassava's resistance to plant diseases.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is good, but the phrase "improved" in the title does not have a clear meaning and should be written as "improved genetic varieties."	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	In the abstract, the author could have used more references to describe the disease.	
Is the manuscript scientifically, correct? Please write here.	YES.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are very few and not recent. I suggest expanding the introduction and discussion sections and using more recent references.	
Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments	<p>This manuscript is a very short scientific report, and given the author's circumstances, I recommend accepting it with a few modifications.</p> <p>In tables, significant letters resulting from statistical analysis should be placed above the numbers and the standard error should also be written.</p> <p>The introduction and discussion are very short and concise and need to be further explained.</p> <p>In the entire manuscript it is written "improved Varieties " and this is ambiguous. It should be written " improved genetic varieties ".</p>	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in detail)</i>
