

Editor's Comment:

In the manuscript, the authors studied the Nutritional and Functional Characterization of Edible Insects in Nigeria: A Sustainable Protein Source.

The purpose and objectives of the study have been fully accomplished.

The studies were conducted at a high scientific and methodological level.

The authors used modern equipment and research methods.

The obtained material has been statistically processed.

The text of the manuscript has a logical structure. The text is written in understandable English. The text contains a small number of spelling errors and typographical errors.

The results have a detailed, thorough analysis and are compared with available literary sources.

The authors do not allow the use of literary data without citing it.

The conclusion is consistent with the results obtained.

However, the following comments can be made.

1. Methods. Points 3.8 and 3.12 should give a brief description of the method.
2. Manuscript. The design of the manuscript requires editing.

Correction of comments will improve the quality of the manuscript and the interest of readers in it. I recommend that you revise the manuscript.
