Title of the Manuscript:	Responses of Cucurbit Fruit fly, Zeugodacus cucurbitae Coquillette to Gel Formulations of Protein Bait
Type of the Article	Original research article

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Fruit fly is a major pest of farm (both agriculture and horticulture) with a complex of over 4000 described species. This obnoxious pest is being managed using synthetic chemicals and baiting materials. Baits tough have proved a way ahead for their identification through catches of pest diversity, population monitoring and killing using bait and poison. Male fruit fly baits are common but it is an urgent need to have bait lures capable of attracting both sexes. This study is an appropriate effort.	yes
Is the title of the article suitable? (If not please suggest an alternative title)	Appropriate with slight change is suggested as- Response of Cucurbit Fruit fly, Zeugodacus cucurbitae Coquillette to Gel Formulations of Protein Bait	Responses was changed to response as suggested
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is fine for text and lack statistically analysed figures for comparing effectiveness of different tested formulations. Numerals may be added. Few changes are suggested to update.
