Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The comparative analysis of milk production and per capita availability in Gujarat and Maharashtra is important as it provides insights into the dairy sector's performance in two major milk-producing states of India. Understanding production trends helps policymakers and stakeholders develop strategies to enhance milk supply, improve dairy farming efficiency, and ensure food security. By analyzing per capita availability, the study highlights regional disparities and the effectiveness of dairy policies and infrastructure.	OK
