	Reviewer's comment Artificial Intelligence (AI) generated or assisted review comments are strictly prohibited during peer review.	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The study, " Optimizing the Growth and Yield of Glutinous Corn Using Ameliorant Formulation and Mycorrhiza on Sandy Soil ," benefits both farmers and the food industry by increasing glutinous corn production, which is widely used in different dishes. The eco-friendly treatments used in this research help maintain healthy soil for long-term farming. Moreover, this study introduces a new and improved method in agriculture.	Thank you for your thoughtful and positive feedback on our study, " <i>Optimizing the Growth and Yield of Glutinous Corn Using Ameliorant Formulation and Mycorrhiza on Sandy Soil</i> ." We sincerely appreciate your recognition of the potential benefits this research offers to both farmers and the food industry. We are pleased that you acknowledge the eco-friendly nature of the treatments applied in this study, as maintaining soil health for sustainable agriculture is one of our primary objectives. Additionally, we appreciate your recognition of our study's contribution to advancing agricultural practices by introducing a new and improved method for enhancing glutinous corn production. Your comments reinforce the significance of our research, and we are grateful for your insightful evaluation.
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title of the article is suitable.	Thank you for your positive feedback. We appreciate your confirmation that the title of our article is suitable. Your thoughtful review is greatly valued, and we are grateful for your time and insights.
