

### Review Form 3

Journal Name:	<a href="#">Asian Journal of Advanced Research and Reports</a>
Manuscript Number:	Ms_AJARR_127304
Title of the Manuscript:	Barriers to Proper PPE Management in a Pandemic
Type of the Article	Original Research Article

#### PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	PPE is essential for protecting doctors from disease transmission and reducing the spread of infections to other patients. It also protects against health and safety dangers at work. One essential piece of personal protective equipment (PPE) for workers is a respirator. They are crucial in situations where alternative control systems are not feasible to protect workers' health and safety. The best respirator depends on the type of particle or chemical it is protecting against.	
Is the title of the article suitable? (If not please suggest an alternative title)	Exploring the Barriers to Proper Management of Personal Protective Equipment (PPE) During a Pandemic in Hospitals	Title has been revised
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.
