

Review Form 3

Journal Name:	Asian Journal of Advanced Research and Reports
Manuscript Number:	Ms_AJARR_130013
Title of the Manuscript:	Experiment on the Application of Polychromatic, Monochromatic, and Achromatic Educational Materials and Their Effect on Memory Recall
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.		The specificity of which precise method or technique produces the best results when used with colorless educational materials under controlled conditions has received little study. By methodologically contrasting and evaluating the three conditions—polychromatic, monochromatic, and achromatic—and their effects on the memory recall of varied participants, this study seeks to close the gap. Additionally, this study seeks to add to the previously published findings and offer tangible outcomes for additional research that is pertinent to this investigation.
Is the title of the article suitable? (If not please suggest an alternative title)		Yes, sir/ma'am.
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		I believe that the abstract of the article summarizes the important concepts of the research. I do not wish to add or delete anything from it.
Is the manuscript scientifically, correct? Please write here.		Yes, the manuscript is scientifically correct. The manuscript was carefully done and the evaluations or assessments of the data were conducted reasonable times to ensure that the results are consistent and reliable.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		Yes, the references are sufficient and recent. The researchers ensured that the related literatures or references used were published within the last 5 years.
Is the language/English quality of the article suitable for scholarly communications?		Yes, the English quality of the article is suitable for scholarly communication. No vulgar or informal language was used.
Optional/General comments	PLEASE SEE ATTACHMENT	The researches very much appreciated the time and effort exerted by the editorial team of this journal. The evaluation made was thorough.
