Title of the Manuscript:	Perceived impact of academic stress on mental health among engineering students in Nigeria
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The topic highlights the critical connection between academic stress and mental health challenges faced by engineering students in Nigeria, a population under significant academic and contextual pressures. It emphasizes the need to address stressors like transportation, teaching methods, and financial concerns that heavily impact students' well-being. Understanding these factors is essential for developing targeted interventions to improve mental health and academic outcomes in this under-researched group.	Thank you for your comments.
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the topic is suitable.	Noted.
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract doesn't meet the basic criteria as it lacks some important information. Moreover, the structure of abstract is not suitable. Some sentences are incomplete. Merge all sections of abstract in a single paragraph. For more comments, please see the reviewed file.	The abstract has been revised to address the comments.
Is the manuscript scientifically, correct? Please write here.	The manuscript lacks some methodological and statistical rigor. For more comments, please see the reviewed file.	The methods section has been revised as recommended. A paragraph was added with more recent studies before the materials and method section and the recommended reference was added to the last paragraph before the limitations.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Almost all references are not complete, without journal names. For more comments, please see the reviewed file.	References have been updated according to the review and requirement of Asian Journal of Advanced Research and Reports.
Is the language/English quality of the article suitable for scholarly communications?	Language and communication style of the paper is not ordinary, but acceptable.	Editorial changes were made throughout the paper to improve clarity.
Optional/General comments	The paper is recommended for further process after major revisions.
