

**Review Form 3**

Journal Name:	<a href="#">Asian Journal of Advanced Research and Reports</a>
Manuscript Number:	Ms_AJARR_131250
Title of the Manuscript:	HEALTH IMPACT OF PARTICULATE MATTER AND GASEOUS EMISSIONS FROM SAW MILL: A CASE STUDY OF OSISIOMA NGWA, ABIA STATE, NIGERIA.
Type of the Article	Research paper

**General guidelines for the Peer Review process:**

**Artificial Intelligence (AI) generated or assisted review comments are strictly prohibited during peer review.**

This journal’s peer review policy states that **NO** manuscript should be rejected only on the basis of ‘**lack of Novelty**’, provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Comments

	<b>Reviewer's comment</b> Artificial Intelligence (AI) generated or assisted review comments are strictly prohibited during peer review.	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The study effectively explores the harmful effects of particulate matter emitted from the sawmill on workers who have been employed there for a significant period. The research precisely investigates these harmful pollutants using advanced measuring equipment, and the results were statistically analyzed	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article is not suitable. The title should specify the subject of the study and align with its nature. An alternate title could be: "A Case Report on the Impact of Particulate Matter and Gaseous Emissions from Sawmills on the Respiratory Health of Sawmill Workers in Osisioma Nngwa, Abia State, Nigeria".	The suggested title would have been suitable for the research if the only health indices assessed was respiratory issues. However, other illness were also assessed. Nevertheless, the suggested title has been modify to suit the aim of the research.
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, the article's abstract was mostly comprehensive, however, including the equipment used for the analysis in the study could be added to improve the overall clarity and comprehensibility of the abstract.	Equipment used for assessment has been added to the abstract
Is the manuscript scientifically, correct? Please write here.	Yes, manuscript is scientifically correct.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	No, the article should include at least 20 references along with their proper citations. Some of the references provided are not recent.	References has been revised
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments		

PART 2:

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
