EDITORIAL COMMENT’S on revised paper (if any)	Authors’ response to editor’s comments
<p>In the paper mentioned only one organosomatic index in the material and method section, and then put more of them in the results section</p> <p>Need to improve the material and methods first. The statistical analysis needs to be improved and compare all experiment week 1 and week 2 together and make only one data base of all experiment and compare the results.</p> <p>Please see attachment</p>	<p>Noted</p> <p>Revision included</p> <p>Done as suggested</p>
