

Review Form 3

Journal Name:	Asian Journal of Medical Principles and Clinical Practice
Manuscript Number:	Ms_AJMPCP_129941
Title of the Manuscript:	Assessment of Serum Nesfatin-1 Level, Cardiovascular Parameters, and Metabolic Risk Factors among Obese and Non-Obese Adults
Type of the Article	Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The authors have claimed that there was a significant relationship between body mass index, a cardiovascular risk factor and Nesfatin-1. This contradict the conclusion of other researchers, hence, further researches needs to be conducted to justify their assertion. Nonetheless, the research holds it significance therefore, it should be appreciated.	The disparity may be due to the race of the participants, further studies are underway to justify the contradiction
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, it is.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is good.	
Is the manuscript scientifically, correct? Please write here.	Yes.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and recent.	
Is the language/English quality of the article suitable for scholarly communications?	Yes.	
Optional/General comments	<p>The author(s) need to show a figure of the physiological role of Nesfatin-1's in the development of cardiovascular and metabolic diseases.</p> <p>The author(s) need to properly number their topics and subtopics in an orderly fashion.</p> <p>Check for any and all inconsistencies in the references.</p> <p>If any part or figure is taken from any other source, then it should be mentioned in the references.</p> <p>Author(s) need to correct grammatical errors before sending the final camera ready paper to the Chief Editor.</p> <p>No, there is no ethical issue.</p> <p>No competing interest issues</p>	<p>1. Figure 2 was added to show the physiological role of Nesfatin-1 in the development of cardiovascular and metabolic diseases.</p> <p>2. Numberings correcteds</p>

Review Form 3

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
