

Review Form 3

Journal Name:	Asian Journal of Pregnancy and Childbirth
Manuscript Number:	Ms_AJPCB_130794
Title of the Manuscript:	Uterine rupture: Prevalence and risk factors at a tertiary institution in Nigeria
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Uterine rupture poses a dreadful problem when encountered in a hospital. Patients who are multigravida with or without previous surgeries should be monitored in a tertiary care centre with good backup to manage emergencies.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is comprehensive	
Is the manuscript scientifically, correct? Please write here.	yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes sufficient	
Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments	Kindly correct the fond size of references. Kindly provide additional data regarding the number of previous surgeries, at what stage of labour, the rupture was diagnosed and what resuscitative measures were required	Thank you for the correction. Font size corrected. 50 women (75%) had previous surgeries as seen in figure 3. I have added to the results the stages of labour, the ruptures occurred and the resuscitative measures.
