

Review Form 3

Journal Name:	Asian Journal of Research in Computer Science
Manuscript Number:	Ms_AJRCOS_130581
Title of the Manuscript:	Dropout : An Effective Approach to Prevent Neural Networks from Overfitting
Type of the Article	

PART 1: Comments

	Reviewer’s comment	Author’s Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Need little bit more clarification	The manuscript has compared the different techniques to tackle the issue of overfitting by reviewing the work done in this domain earlier. It provides both theoretical insights and empirical analyses With the inclusion of recent advancements in dropout variations, this study is a valuable resource for researchers and practitioners aiming to enhance the robustness of neural networks.
Is the title of the article suitable? (If not please suggest an alternative title)	yes	Thanks reviewer
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	Thanks reviewer
Is the manuscript scientifically, correct? Please write here.	yes	Thanks reviewer
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Need to modify new references , update recent references	Thanks reviewer , I added the references [30],[31] and [32] as you want.
Is the language/English quality of the article suitable for scholarly communications?	yes	Thanks reviewer
Optional/General comments
