Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript provides valuable insights into the effects of Solanum melongena (eggplant) on coagulation parameters among Sudanese individuals in Khartoum. By evaluating common parameters such as PT and aPTT, this study fills a critical gap in understanding the health implications of consuming a widely eaten and affordable dietary staple in Sudan. The findings, though preliminary, set the foundation for future investigations into the dietary effects of eggplant and its potential influence on coagulation. This work is significant for the scientific community, offering a reference point for both nutritional studies and clinical research involving local dietary habits.	Thank you for your valuable comments.
Is the title of the article suitable? (If not please suggest an alternative title)	The title, "Evaluation of the Effect of Solanum melongena on Some Coagulation Parameters Among Sudanese People in Khartoum State 2021," is descriptive and provides a clear overview of the study's focus.	Thank you.
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	YES	Thank you.
Is the manuscript scientifically, correct? Please write here.	CORRECT, the manuscript appears scientifically correct in its methodology and analysis, with no significant deviations or errors in the reported findings.	Thank you.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	YES, the references are relevant but limited in number; adding more recent and diverse studies on Solanum melongena and its biochemical or health effects would strengthen the manuscript.	Thank you.
Is the language/English quality of the article suitable for scholarly communications?	The manuscript presents valuable research and can benefit from careful refinement to enhance its clarity, consistency, and professionalism.	Noted.
Optional/General comments	The study provides valuable insights into the dietary effects of eggplant and has the potential for greater scientific impact with enhanced presentation, a more detailed discussion, and the inclusion of updated references.	Thank you.

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
