PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Autosomal disorders are always difficult to identify in the first impression and hence, case reports like these help in carving a path towards the diagnosis of the general dentist or a general physician.	Ok
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title is suitable and comprehensive.  Alternate Title suggestion: Christ-Siemens-Touraine syndrome: A rare case report	I've modified the title accordingly
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, the abstract is comprehensive and apt.	Thank you
Is the manuscript scientifically, correct? Please write here.	More information about ectodermal dysplasia must be included in the 'introduction' section. In the 'discussion' section, mention more studies or case reports related to the topic.	I have done that in the revised manuscript
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	More recent references can be added as only 5 references from the past 10 years are included.	I've added new references
Is the language/English quality of the article suitable for scholarly communications?	It can be better. Certain mistakes in spellings and grammar are noted overall.	Ok
Optional/General comments
