

**Review Form 3**

Journal Name:	<a href="#">Asian Journal of Research in Botany</a>
Manuscript Number:	Ms_AJRIB_130754
Title of the Manuscript:	DIVERSITY OF ANGIOSPERMS AT MACHIGAD FORT, HALASHI, KAHANAPUR, BELAGAVI
Type of the Article	Original Research Article

Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript is a little important to the international scientific community, but may be useful to the local region to know the existing plant species and to see its scientific and economic importance	Yes sir.
Is the title of the article suitable? (If not please suggest an alternative title)	Title acceptable according to the content of the manuscript, but I do not know why the author treated angiosperms without gymnosperms	As we have not got any gymnosperms in that area, that is moist deciduous forests.
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract insufficient and requires clarification of the results part obtained or the introduction should be integrated directly into the abstract	We will change it sir.
Is the manuscript scientifically, correct? Please write here.	The writing of the manuscript with three pages is insufficient, and requires some clarification, especially for the discussion of results section	We will change it sir.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The manuscript is acceptable in its methodological form, but it is better to integrate the introduction into the summary and add more explanation in the results and discussion section, and the table of identified species is placed as an appendix in the manuscript	Ok. sir
Is the language/English quality of the article suitable for scholarly communications?	Quality fairly good to good (acceptable)	Ok. sir
Optional/General comments	It is considered that the author has treated an important subject to clarify the plant diversity of this region, and it is considered that this is a study preliminary requires a continuation in the future	Yes sir.

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	No ethical issue sir.
