PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This study highlights the neuroprotective potential of <b>Moringa oleifera</b> extract against cobalt chloride-induced neurotoxicity, contributing to the understanding of natural antioxidants in mitigating oxidative stress-induced damage. The findings support the use of Moringa as an effective alternative treatment for neurodegenerative diseases, making it valuable for researchers focused on plant-based therapies.	
Is the title of the article suitable? (If not please suggest an alternative title)	<p>The title, "<b>Effects of Ethanol Moringa oleifera Leaves Extract on Cobalt Chloride-Induced Histomorphological and Oxidative-Stress Damage on Cerebellar Cortex of Male Wistar Rats,</b>" is informative and reflects the content of the study. However, it is quite lengthy and could be simplified for better readability.</p> <p><b>Suggested Alternative Title:</b></p> <p><b>"Neuroprotective Effects of Moringa oleifera Extract Against Cobalt Chloride-Induced Oxidative Damage in the Cerebellum of Male Wistar Rats"</b></p> <p>This alternative maintains the key elements while improving clarity and conciseness.</p>	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract provides a good overview of the study, including the background, aims, methods, results, and conclusion.
