PART 1: Comments

	<b>Reviewer’s comment</b> <b>Artificial Intelligence (AI) generated or assisted review comments are strictly prohibited during peer review.</b>	<b>Author’s Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	This manuscript really hit the nail on it head by going extra mile to analyzed the life style risks factors one by one as captured in the results and discussion section.	Thanks for your comment
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	I will suggest having a title as Analytical Studies on Chronic Kidney Disease and Associated Lifestyle Risk Factors among the Patients of Different Hospital in Dhaka City	Thanks for your suggestion. We wrote the analytical word before the previous title. Please check the updated title.
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	Abstract not included	Thanks for your comment but I don’t know why you say that abstract was included. When submitted the abstract was included. Please revised previous and updated manuscript
<b>Is the manuscript scientifically, correct? Please write here.</b>	Yes, but orderly I think it should be arranged as follows 1. Abstract 2. Introduction 3. Material and Methods 4. Result and Discussion 5. Conclusion 6. References	Thanks for your comment. According to your suggestion we have rearranged this. Please revised updated manuscript.
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	Firstly the references are not sufficiently enough, Secoond there is need to follow the APA format of refrencing.	Thanks for your comment. We have added several more references as well as we have written according to the journal format.
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Yes, only for some typographically errors in a statement that needs to be prove read and corrected by the author. E.g Under recommendations item number 9, the statement reads healthy people should “ <u>eat</u> ” plenty of water, instead of “ <u>drink</u> ” .	Thanks for your comment. We made the correction that was wrong word in 9 number recommendation
<b>Optional/General</b> comments	The manuscripts is really worth publishing because it captures a lot of contribution to the existing body of knowledge on CKD and its associated risk factors	Thanks for your comment
