

Review Form 3

Journal Name:	Asian Journal of Soil Science and Plant Nutrition
Manuscript Number:	Ms_AJSSPN_130472
Title of the Manuscript:	Yield and yield attributes of wheat (Triticum aestivum) and soil physico-chemical properties under nano-urea application
Type of the Article	Research Paper

PART 1: Comments

	Reviewer’s comment	Author’s Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	1.This manuscript helps to the researchers to enhance their knowledge for future experiments and knowledge. 2. Application of nano urea helps to improves the nutrient use efficiency and enhanced grain yield of wheat. 3. Conventional fertilizer are too costly	Thanks for the comments
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	Ok
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	Ok
Is the manuscript scientifically, correct? Please write here.	Yes	Ok
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes but not in an APA style	Thanks for the suggestions
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	The manuscript is a valuable contribution to the field, providing both theoretical insights and practical recommendations for the use of nano nano urea in wheat for enhancing the economics of wheat as well as nutrient use efficiency.	Thanks for the comments

PART 2:

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
