Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript provides valuable insights into the soil fertility status of selected panchayats in the Deeh Block of Raebareli district, Uttar Pradesh, which is crucial for sustainable agricultural planning. By assessing key soil parameters such as pH, organic carbon, macronutrients, and micronutrients, the study helps in identifying soil constraints and guiding site-specific nutrient management practices. The findings contribute to improving crop productivity, ensuring balanced fertilization, and promoting soil health conservation in the region. Furthermore, the study serves as a reference for policymakers, researchers, and farmers in implementing targeted soil fertility enhancement strategies.	Thanks for the comments
