

Review Form 3

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_130775
Title of the Manuscript:	Novel Environmental Remediation Techniques for Enhancing Public Health and Ecosystem Resilience
Type of the Article	Review Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript provides valuable insights into the environmental remediation	Thanks for your feedback
Is the title of the article suitable? (If not please suggest an alternative title)	<p>The title "Novel Environmental Remediation Techniques for Enhancing Public Health and Ecosystem Resilience" suggests a focus on advanced or innovative remediation methods. However, it currently appears to provide more of a general overview rather than showcasing cutting-edge or novel technologies in environmental remediation, only 3 advancements are written. To strengthen the title, it would be beneficial to emphasize specific, emerging technologies</p> <p>The manuscript lacks specific examples or case studies of innovative environmental remediation methods that could demonstrate the practical application and success of the proposed techniques.</p>	Thank you for your feedback. All that have been raised in this comment have been noted and may therefore become the gap of this work upon which subsequent researches in this area could fill/supplied to the body of knowledge.
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	Thanks for your feedback
Is the manuscript scientifically, correct? Please write here.	In section 2.0 EMERGING ENVIRONMENTAL POLLUTANTS AND THEIR CLASSIFICATIONS Classification not given	Thanks for your feedback. This may however, be a major gap of this work and subsequent research in this area would expand more on this.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	yes	Thanks for your feedback
Is the language/English quality of the article suitable for scholarly communications?	yes	Thanks for your feedback
Optional/General comments
