| Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part. | Authors sought to characterize spray rinse waters used in agricultural plots in Ivory Coast through identifying present plant residues. These are essential for controlling diseases, insects, pests, and weeds. This study is timely and relevant in sustainable agriculture. The focus of the study is topical, and the methodology applied is appropriate to objectively achieve the study goal. There flow of the manuscript is adequate with a good readability and composition. | Thank you for your comments. |
| Is the title of the article suitable? (If not please suggest an alternative title) | The title is appropriate. However, for consistency, Ivory Coast should be capitalized. | CHARACTERIZATION OF SPRAYER RINSING WATER IN RICE PLOTS IN THE YAMOUSSOUKRO REGION, IVORY COAST |
| Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here. | The abstract is self-sufficient. | Thank you. |
| Is the manuscript scientifically, correct? Please write here. | The introduction provides a good background. However, citations within the text should be continuous, and words like highlighted, according to, as noted, etc. should not be used unless it is necessary. The objectives are clear. The methodology is well-described and detailed. Figures are well presented and captioned. However, authors should use pattern fill instead of solid fill. Data support conclusions concisely. | We have formulated the in-text quotes by refraining from using words such as "highlighted", "according to", "as indicated" |
| Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. | The references are appropriate, sufficient, recent, and relevant. | |
| Is the language/English quality of the article suitable for scholarly communications? | The authors should revise the manuscript to correct minor grammatical and typographical errors. | We have revised the manuscript and corrected minor grammatical and typographical errors. |
