

Review Form 3

Journal Name:	European Journal of Medicinal Plants
Manuscript Number:	Ms_EJMP_130513
Title of the Manuscript:	Antimicrobial Efficacy and Impact on denture Properties of prepared herbal denture cleansers -An Invitro study
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	It is a vast variety of aspect that this research had studied which will give a lot of impact for community. The result may give an insight for an alternative of ingredients used in mouth rinse. However, may need more clarification of the study as it is not specific for an impactful research has it is too broad.	Thanks for the comments
Is the title of the article suitable? (If not please suggest an alternative title)	Yes but maybe better if can be more specific to certain properties	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Need further explanation on the methodology and result. Detail comment has been given in the reviewed manuscript.	Thanks for the comments
Is the manuscript scientifically, correct? Please write here.	Please specify and explain further on the result of Table 2 to Table 4 as it is not clear and a bit confusing.	Thanks for the comments noted and revised
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Some references are more than 10 years. May need to change to the latest references. If not to specify why.	
Is the language/English quality of the article suitable for scholarly communications?	Yes acceptable.	Thanks for the comments
Optional/General comments	It is a broad coverage of manuscript that leads to a bit confusing on how the research was done and affect the validity of the study. May need to clarify certain things that been given in the reviewed manuscript. Result should be more specific and detail/clear presentable of the Table with good explanation. Discussion is acceptable but may be better if can clarify certain importance and relation of the study to the previous study or any recommendation or restriction that may affect the results of the study.	Ok

Review Form 3
