	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	It is a very current pathological entity that requires updating in its diagnostic process so that treatment can be improved at the same time.	Thanks for the comments
Is the title of the article suitable? (If not please suggest an alternative title)	yes	Thanks for the comments
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	I would add the laboratory techniques of the antibody tests that were used to be sure of the negative results, once knowing their specificity and sensitivity. I would also add the result of the immunological profile and the images.	Thanks for the comments
Is the manuscript scientifically, correct? Please write here.	I would update the treatment, complement inhibitor medications are needed for example	Thanks for the comments
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes. reference 8 and 14 are the same	Noted and added new references
Is the language/English quality of the article suitable for scholarly communications?	yes	Thanks for the comments
Optional/General comments
