Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	1.This manuscript helps to the researchers to enhance their knowledge for future experiments and knowledge. 2. Application of organic sources improve soil health. 3. Organic farming make a sustainable agriculture.	We appreciate the reviewer's comments highlighting the importance of our manuscript. This study provides valuable insights into the impact of organically grown intercropping systems on soil properties and carbon pools, contributing to sustainable agricultural practices. The findings, particularly the role of systems like Cotton + Sunhemp and Soybean + Pigeon pea, offer a blueprint for enhancing soil quality and fertility in semi-arid agroecosystems. This research underscores the significance of organic farming in improving soil health, ensuring long-term agricultural sustainability, and guiding future experiments in this domain.
