

Review Form 3

Journal Name:	International Research Journal of Gastroenterology and Hepatology
Manuscript Number:	Ms_IRJGH_130506
Title of the Manuscript:	Hepatoprotective effect of Honey and Green tea on Atrazine induced hepatotoxicity in Albino Wistar rats
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer’s comment	Author’s Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript suffers from writing clarity, organization, and coherence issues. The language is not sufficiently clear, making it challenging for readers to follow the arguments and conclusions. There are multiple mistakes of grammar and sentences. some where use small letter instead of capital letter at start of sentences, a comprehensive proof reading is still required, Make discussion section a bit short and avoid repetition of similar things.	All grammatical errors have been corrected.
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Improve grammatical quality of abstract	Improve grammatical quality of abstract has been improved
Is the manuscript scientifically, correct? Please write here.	Some corrections are necessary before final acceptance. Table captions are not appropriate, improve table captions.	Corrections have been made and table captions have been modified.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References should be updated according to recent literature studies	More references have been added
Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments	I believe that addressing these issues will significantly improve the manuscript. I recommend that the authors carefully revise the manuscript, paying particular attention to the abovementioned points.
