

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_130622
Title of the Manuscript:	<b>Biosorbent Based on Tomato Stems: Adsorption Properties Using Methylene Blue as Pollutant Test</b>
Type of the Article	

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	<b>This research manuscript is important for the science community because of its environmental implications. There are diverse solutions to environmental challenges but not has proved to be satisfactory resulting in more research findings.</b>	Thanks for the comments
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>Title is suitable</b>	

<p><b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b></p>	<p><b>Abstract is suitable</b></p>	<p>Thanks for the comments</p>
<p><b>Are subsections and structure of the manuscript appropriate?</b></p>	<p><b>Subsections and structure is alright</b></p>	<p>Thanks for the comments</p>
<p><b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b></p>	<p><b>The work in the manuscript is scientifically robust and technically sound because it applies scientific procedures in finding solution to environmental problem through Adsorption science</b></p>	<p>Noted</p>
<p><b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b></p>	<p><b>References are sufficient</b></p>	<p>Thanks for the comments</p>

<p>Minor REVISION comments</p> <p><b>Is the language/English quality of the article suitable for scholarly communications?</b></p>	<p>English in the entire manuscript need general modifications as there several poorly written parts.</p>	<p>Manuscript has been read again and corrected.</p>
<p><b>Optional/General</b>comments</p>	<p>Units of quantities should be checked and corrected. For example, Adsorbent mass should be in g or mg but not in g/L as mentioned under section 2.3 (MB adsorption studies). Authors did not characterize the Adsorbent material in this studies. This is not good at all for such studies. At least two Characterization should be carried out before this paper should be published.</p>	<p>Due to the severe lack of characterization equipments in the University where this work was carried out, we could not do any characterization test.</p>

**PART 2:**

	<p><b>Reviewer's comment</b></p>	<p><b>Author's comment</b><i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i></p>
<p><b>Are there ethical issues in this manuscript?</b></p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
