Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Bio Efficacy of Emamectin Benzoate 5 SG and 1.9 EC against Shoot and Fruit Borers of Okra" holds significant importance for the scientific community, particularly in the fields of entomology, plant protection, and sustainable agriculture. Okra is a vital crop in many tropical and subtropical regions, and the damage caused by shoot and fruit borers can lead to substantial economic losses. This study provides valuable insights into the efficacy of emamectin benzoate, a widely used insecticide, in managing these pests, thereby contributing to the development of integrated pest management (IPM) strategies for okra.
