

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_131049
Title of the Manuscript:	Gross morphological studies of the scapula and humerus of the Indian grey mongoose or Asian grey mongoose (Herpestes edwardsii)
Type of the Article	Original Research article

PART 1: Comments

	<b>Reviewer’s comment</b> Artificial Intelligence (AI) generated or assisted review comments are strictly prohibited during peer review.	<b>Author’s Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This study is very important for veterinary and zoology. It will be milestone for life science. Further study should be done to improve in this field.	Thanks for the comments
Is the title of the article suitable? (If not please suggest an alternative title)	No, the title is not suitable. Gross morphological studies of the scapula and humerus of the Indian grey mongoose (Herpestes edwardsii)	Gross morphological and radiographic studies on the bones of the shoulder and arm in Indian grey mongoose or Asian grey mongoose (Herpestes edwardsii)
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes the abstract of the article is comprehensive.	Thanks for the comments
Is the manuscript scientifically, correct? Please write here.	Yes the manuscript is scientifically correct.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	13-17, 21no. references are not recent but others are sufficient.	The authors feel that these references though old are to be included as they were done on rare wild animals such as hedge hog, Great indian rhino, Asiatic lion, sloth bear etc., and are appropriate reference to compare for this carnivorous species in the present study
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments
