

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_131215
Title of the Manuscript:	Nutritional Potential of Watermelon (Citrullus lanatus (Thunb.) Matsum. & Nakai) Genotypes with Different Flesh Colours
Type of the Article	Original Research Article

Review Form 3

PART 1: Comments

	Reviewer's comment Artificial Intelligence (AI) generated or assisted review comments are strictly prohibited during peer review.	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Watermelon is important crop for diara land cultivation and it is richest source of anthocyanin and vitamin and it determines attractiveness and signifies the health-promoting benefits. Distinct genotypes have distinguished nutritional quality according to their colour.	Yes. Watermelon is a major cucurbitaceous vegetable crop primarily cultivated for its sweet and nutritious fruit. It is potential source of antioxidants, vitamins and other health benefiting nutrients. Watermelon genotypes with distinct flesh colours have distinguished nutritional qualities.
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	Yes
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes Please add effect of distinguished colour genotype on yield of watermelon	Yes. Included the effect of different flesh coloured genotypes on yield of watermelon.
Is the manuscript scientifically, correct? Please write here.	Yes	Yes
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	Yes
Is the language/English quality of the article suitable for scholarly communications?	yes	Yes
Optional/General comments	Mention the table of correlation of yield and quality and Effect of different genotype on yield and quality	Mentioned

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	No
