	Reviewer's comment Artificial Intelligence (AI) generated or assisted review comments are strictly prohibited during peer review.	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript holds significant importance in agriculture as it explores the potential role of rhizospheric bacteria as biofertilizers instead of using chemical fertilizers.	Yes we can use this strain in making biofertilizer for the plant and it supress the use of chemical fertilizer.
Is the title of the article suitable? (If not please suggest an alternative title)	Suggested Alternative Title: Isolation and Identification of Plant Growth-Promoting Rhizobacteria from sugarcane (<i>Saccharum officinarum</i>) Rhizosphere	Yes title is suitable
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract provides a good overview of the study, covering the aim, methodology, results, and conclusion. <ul style="list-style-type: none">- you must use passive form in this sentence (We took sample from different types of sugarcane rhizosphere in the Ankleshwar area to obtain isolates).- Please use solubilize phosphate instead of break down phosphate, use produce IAA instead of make IAA, (produce) make nitrogen	The correction has been completed according to the reviewer suggestion in the Abstract.
Is the manuscript scientifically, correct? Please write here.	yes	The study is scientifically planned and written.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and relevant to the study but I have a comment on the way of writing it for example you (Sureshbabu et al. 2016) when you put the reference between brackets, write et al italic <i>et al</i> and put comma after it like this (Sureshbabu <i>et al.</i> , 2016)	The correction has been completed according to the reviewer suggestion in the references format.
Is the language/English quality of the article suitable for scholarly communications?	yes	Yes
Optional/General comments	In material and methods please use passive form for example We took a rhizospheric soil sample replace it with the rhizospheric soil sample was taken please check all methods	The correction has been completed according to the reviewer suggestion in the material methods part.

PART 2:
