Review Form 3

Journal Name:	**Journal of Advances in Medicine and Medical Research**
Manuscript Number:	**Ms_JAMMR_122321**
Title of the Manuscript:	**ALCOHOLIC LIVER BIOMARKERS: DETERMINANTS FOR ADMISSION TO REHABILITATION CENTRES DURING THE COVID 19 PERIOD IN KENYA**
Type of the Article	

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty'**, provided the manuscript is scientifically robust and technically sound.

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback *(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript provides crucial insights into diagnosing alcoholic liver injury using biomarkers during the COVID-19 pandemic in Kenya, offering valuable data for healthcare professionals worldwide. Its rigorous methodology and detailed analysis enhance its credibility and relevance to global health discussions.	OK
Is the title of the article suitable? **(If not please suggest an alternative title)**	The title is informative and adequately reflects the study's focus on liver biomarkers during the COVID-19 period in Kenya. However, it could be more concise. Here are a few alternatives: 1. Evaluating Liver Biomarkers for Rehab Admission During the COVID-19 Pandemic in Kenya. 2. Impact of COVID-19 on Liver Biomarker Levels in Kenyan Rehab Admissions. 3. Liver Biomarkers as Predictors for Rehab Center Admissions in Kenya Amid COVID-19.	Noted
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	For a more comprehensive abstract, author can succinctly highlight the critical findings, particularly the elevated liver biomarker levels and their implications. Also, clearly outline the study's impact on clinical practices or future research related to liver health during pandemics.	Effected
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The well-defined cross-sectional study design and systematic sampling used ensure the findings are scientifically reliable. Accurate statistical methods, including regression and ANOVA, validate the study's conclusions about liver biomarkers during the COVID-19 pandemic.	Done revision
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. **-**	Yes	
Minor REVISION comments **Is the language/English quality of the article suitable for scholarly communications?**	Yes	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
