PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript provides valuable insights into how the COVID-19 pandemic disrupted primary preventive dental care within Brazil's Universal Health System (SUS) during its first two years. By analyzing the pandemic's impact on access, service delivery, and public health outcomes, the study highlights critical gaps in preventive care and their implications for oral health equity. The findings contribute to understanding the resilience and adaptability of health systems under crisis conditions, offering lessons for policymakers and healthcare providers to strengthen future pandemic preparedness and maintain essential services. This work is a crucial resource for advancing strategies to ensure uninterrupted oral health care during public health emergencies.	Thank you for your comment.
