

Review Form 3

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_130333
Title of the Manuscript:	Patient-Related Factors That Influence Ssis Among Post Laparotomy Patients In The Surgical Unit At Thika Level 5 Hospital Kiambu County
Type of the Article	Not mentioned by author

PART 1: Comments

	Reviewer's comment	Author's Feedback(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimumof 3-4 sentences may be required for this part.	Thisis an important surgical problem. The problem can be lessened by prophylaxis monitoring and timely detecting and treating.	
Is the title of the article suitable? (If not please suggest an alternative title)	An appropriate title Change SSIS with SSIs	Ok
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract lakes sequence and paragraphing Sentences are corrected/suggested, at some places in text in review.	Noted
Is the manuscript scientifically, correct? Please write here.	It is more of a lecture than a research paper. Its emphasisis more on statistical parameters than on clinical scenario! It lacks definition of caption – surgical site infection. It does not mention classification of SSI. We have to search risk classification of clean, clean-contaminated and contaminated.....	Effectted
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	More than reference citation	added
Is the language/English quality of the article suitable for scholarly communications?	Languish needs improvement	
Optional/Generalcomments
