Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	pilocarpine acts on muscarinic receptors and shows convulsant action. <i>O. gratissimum</i> has anticonvulsant and anxiolytic properties. In this research paper, Decoction of leaf shows pharmaocolgical action against epilepsy.	ok
Is the title of the article suitable? (If not please suggest an alternative title)	<b>Decoction of <i>Ocimum gratissimum</i> leaf shows preventive effects on pilocarpine-induced seizure and anxiety in white mice</b>	Also interesting, but we find the choosed title also suitable
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	<i>Should be written family and common name of Ocimum gratissimum in the abstract and also should mention mice species here.</i>	done
Is the manuscript scientifically, correct? Please write here.	Correct	ok
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Sufficient	ok
Is the language/English quality of the article suitable for scholarly communications?	To be checked properly	ok
<u>Optional/General</u> comments	1. In abstract should be written leaf decoction instead of leaf decoct of..... 2. Four differnt doses of it .....don't repeat leaf decoction in the paper, it is already mentioned in the title and in introduction ....	done

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>  The protocol were performed in concordance with the International Guide for the Care and Use of Laboratory Animal (Nationall Institute of Health; publication No 85-23, revised 1996) and the Cameroon National Ethical Committee, Yaoundé (No. FW-IRB00001954)
