Manuscript Number:	Ms_JEAI_130595
Title of the Manuscript:	Method for selection of superior lines with combined stay-green and stem reserve mobilisation traits in wheat under multi-environment stress conditions
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	To meet environmental challenges and increasing consumer demand, the breeding process must consider not only yield-related traits but also characteristics associated with resilience to abiotic stresses. It is in this particular context that lies the importance of this multifactorial approach in the selection of wheat varieties adapting a well-defined parametric approach. The present combined method using several indexes is appropriate for the selection programs of the wheat genotypes.	Thanks for the comments.
