What where the questions? Where is the appendix with it? The whole reporting part is completely offset. OLS regression is not the right tool</p> <p>Regression Analysis with Categorical Dependent Variables should be applied . binary logisitc will be a much better choice. The results under OLS say nothing.</p> <p>The subject itself is very interesting and this is the (only) thing that keeps the reader following the paper</p>	<p>Comment accepted and considered</p> <p>Noted</p> <p>Ok</p>
<u>Minor</u> REVISION comments	Must go proof reading. If budget is the issue then peer reading will show multiple language and phrasing issues . Firstly and secondly? That cannot be right	Corrected
<u>Optional/General</u> comments
